IDEAL 8306

Features

PAPER EJECTION

Stream delivery paper ejection system conveyed by belts and three manually selectable ejection roller positions.

CONTROL PANEL

Four push buttons and the digital display with the addition/subtraction counter guarantee an easy, uncomplicated operation.

FOLDING POSITIONS

Fold symbols and colour codes indicate the positions of the fold stops on the two pockets for easy setting of the different fold types.

STORES EASILY

Feeding and paper receiving trays fold away. Compact dimensions and only 15 kg make it fully portable.
